

Save the Date! Southern California STEM Service-Learning Institute July 17, 18, 19, 2012

Come and join us for a three-day Southern California STEM (Science, Technology, Engineering, Mathematics) Service-Learning Institute July 17, 18, 19, 2012. The Institute is a great opportunity for teachers and educators throughout the regions of Southern California to gather and network. Topics will range from the integration of specific California Academics Content Standards in the STEM content areas to STEM Service-Learning project planning. Through interactive tours and hands-on activities attendees will be introduced to air quality issues, water conservation and green careers, along with conservation and alternative energy sources. Participants will gain knowledge on the elements of a high quality STEM Service-Learning project, recruitment and retention of the underrepresented youth and gender equity as these areas pertain to Science, Technology, Engineering and Mathematics. Agencies, business partners and educators will guide attendees on various aspects of project management and design, building and sustaining school-community partnerships, and the evaluation assessment process. Teams consisting of two site representatives from districts throughout Southern California attending the Institute will receive classroom support materials, local follow-up training, and updates.

"...the practical service-learning strategies and diverse themes will awaken and engage even the most reluctant learners." -Denise Clark Pope, Lecturer, Stanford University School of Education.

Who Should Attend?

Teachers of Science, Mathematics, Environmental Education and/or are teaching 6-12th grades and have an interest in STEM Service-Learning. This includes Alternative Education, AVID, After-School programs and CTE

Leadership team

Lorie Suntree, Region 10 Service-Learning Specialist/CREEC/STEM Coordinator, STEM Service-Learning Institute Chair

Rick Hall, Ed.S. Region 10 Director Service-Learning/CREEC/STEM, STEM Service-Learning Institute Co-Chair

Martha Hall, Region 10 Lead After School Programs SBCSS, STEM Service-Learning Institute Co-Chair

Event Information

Date:	July 17-19, 2012
Time:	8:00 a.m. to 4:30 p.m.
Location:	Day 1-T.B.A. Day 2- T.B.A. Day 3-T.B.A.
Event Cost:	Free
UC Riverside Credits:	6 Quarter units available in Math & Science at a nominal fee
Includes:	Materials, breakfast & lunch each day
Register:	http://oms.sbcss.k12.ca.us/31-54662
